

2024/2025 lunch and learn program for the dental team

Latest in Implant Prosthodontics

BYDESIGN
IMPLANT DENTISTRY

Hosted by **Dr. Sher Shah Shahab**

Topics to choose from:

1. Introduction to implant prosthodontics (1 hr)

- Overview of implant-supported options: single crowns, bridges, and full-arch solutions
- Selecting approaches based on patient needs and anatomy
- Workflow for single-unit implant surgery and restoration
- Communicating effectively with patients about implants

2. Digital workflow: Scanning, planning, guided surgery, and 3D printing (1 hr)

- Digital tools for streamlined workflows and improved accuracy
- Guided surgery for precision and predictability
- Overview of pre-op planning, guide fabrication, and prosthetic planning

3. Full-arch restorations: Options and planning (1 hr)

- Comparing removable vs. fixed solutions based on lifestyle and budget
- Key records for treatment planning and workflow for All-On-4 and fixed zirconia bridges
- Managing patient expectations

Why book a lunch and learn?

Team engagement: Bond over lunch while learning valuable skills

Expert insight: Practical knowledge from a prosthodontic specialist

Enhanced care: Skills to improve case selection and patient outcomes
